

# Diana Jackson

## *Think Safety*

To help children and adults with special needs stay safe, Diana dedicated her Gold Award project to provide extra support to occupational therapists and patients. She created a wooden gameboard and trivia questions to educate people on what to do if someone is hurt or when it's safe to share an address with someone and other scenario-based questions. After giving it to occupational therapists, Diana learned that those who played the game had a positive learning experience, especially since there are few games focused on safety for children and adults with special needs. As someone with autism, Diana is excited to share her project with friends and others who will benefit from it. After 10 years as a Girl Scout, she advises future Gold Award recipients to choose a meaningful project and produce something extraordinary.
