

Camp Arrival Health Check Procedure

Whether you transport your camper to camp or they arrive on the bus, a health check will be conducted on check-in day.

- Make sure your camper is wearing close-toed shoes, and socks, and has a hat, water bottle, and face mask.
- We'll verify the camper's name and confirm the following: program registered, buddy, and authorized pickups.
- The health check at camp will also include the following:
 1. Temperature check (must be under 100°F).
 2. Lice, observable illnesses, or injury (running noses, rashes, sprains, etc).
 3. Has your child taken Tylenol or any other fever-reducing medicine today?
 4. Does your child have: a cough, shortness of breath, difficulty breathing, chills, muscle pain, sore throat, new loss of taste or smell, nausea, vomiting, or diarrhea?
 5. Are there any members of your household with symptoms consistent with COVID-19 or any other communicable illness?

If the answer to any of the questions is "YES," your child cannot be admitted to camp today, and the camp session should be rescheduled.
