

# Black History Month Patch

**In February 1926, historian Carter G. Woodson and the Association for the Study of Negro Life and History initiated Negro History Week, which planted the seed for the celebration of Black History Month, originated in 1970. Black History Month is an annual celebration of achievements and contributions of the African American and Black communities—a time (though not the only time) for emphasizing the central role of this varied community throughout U.S. history.**

**Our Council's Own Black History Month patch** is designed to help you discover more about Black History and the achievements and contributions of the African American and Black communities specific to Arizona, connect with community resources, and take action to educate others.
