Here is how to support your daughter in participating during the Fall Product Program.
With your help and support, she will have the opportunity to improve on valuable life skills such as goal setting, decision making, business ethics, money management and people skills.

What Girls Need to Participate

A signed Parent Permission Form on file with her troop or IGM Coordinator.

A Fall Product Program packet, which includes a candy/nut paper order card, money envelope and a M2 online flyer with information about how to set up an online storefront.

For participation electronically, Internet access and parental supervision is required.

Participating Online

Beginning October 1, girls create an online account in the M2 system (see October 1 on right for details on getting started).

Within her online account, she creates an avatar with her own virtual likeness, enters e-mail addresses and creates a personal message to send to family and friends. As a way to increase her sales, we also suggest she record her voice for her avatar or upload a personal video explaining what her troop plans to do with the money earned. She then launches her campaign and her personal message is sent with links for her customers to shop for magazines and/or candy/nut items.

Girls should create their online account and send out e-mails early in the program to allow maximum time for their customers to make a purchase.

M2 system collects payment at the time of an online order (via credit card) for all products ordered online (including girl-delivery candy/nut items).

All orders placed online (including girl-delivery orders) are automatically added to the M2 System so parents need not record/enter any online sales.
